Mainframe – Sanity Checklist

Test Coverage

- ■ Core user flows are tested
- ■ Admin functionality is tested
- ■ Data operations are tested

Automation

- ■ Tests run automatically
- ■ Pass/fail output is clear
- ■ Tests can be re-run consistently

Reporting

- ■ Failures are clearly visible
- ■ Logs or summaries are readable
- ■ Results are understandable to non-developers

Final Check

- ■ Tests can be run live during demo
- ■ System detects at least one meaningful failure case
